
THE RED COLLECTION

FERRARI 275 GTB COMPETIZIONE CLIENTI

This car is one of only ten factory Ferrari 275 GTB Clienti Competizione examples built, just three of which are right hand drive. These cars were the last true dual-purpose Ferraris that were equally at home on the road or on the circuit. The depth of research and dedication of the recent restoration was extraordinary and is testament to the owner's desire to make this 275 GTB Competizione Clienti exactly as Ferrari intended it to be. Engine, numero interno, transaxle and body number all line up with the factory build sheet listing which adds to the correctness and authenticity of this very rare Ferrari. The five-year restoration project culminated in a 1st in Class at Hampton Court Palace Concours in 2020, and the car has just been awarded the Ladies Cup at the 2021 Ferrari Owners' Club Concours. It is now ready to be used as a fantastic road car, while also being eligible for the Goodwood Revival, Classic Le Mans, the Tour Auto and many other classic car events.
